Looking for the Perfect Chinchilla Pet ?

Chinchillas are easy to maintain:

- They live 10 -18 years
- They are very clean & have almost no odor
- They eat about 2 tablespoons of rabbit pellets a day
- They need a good quality timothy hay
- Their teeth grow so they need wood chew blocks to keep their teeth short
- They are very curious and inquisitive
- They don't need lots of attention
- They don't need to go for walks
- Perfect apartment pet
- They bathe in a dust, so no messy wet baths!
- They will need air conditioning if the temp is over 74 degrees

Why you should choose a Reputable Breeder!

Reputable Breeders care about improving the quality of chinchillas. Most reputable breeders show their animals and are always breeding for that superior animal. This makes their animals, even the pet ones, more desirable in the following ways:

Black Velvet baby

- Animals are bred and handled often for gentle personalities
- Animals are bred for vigor and a long life with much attention to ensure the animal does not have genetic flaws or health issues
- Reputable breeders keep detailed herd records to ensure quality lineage
- Reputable breeders provide education for you and family members
- Many reputable breeders will accept the animal back if it does not work out in your home
- Most reputable breeders use a contract so you know exactly what to expect with pricing, guarantees and returns
- Reputable breeders pricing is comparable to pet shops, "chinchilla mills", and back yard breeders, but they offer so much more!
- Reputable breeders provide after care for questions that arise after the sale
- Reputable breeders will help you arrange for transportation or delivery if you need to
- Reputable breeders will help you select the right pet personality for your home
- Reputable breeders care much more about a loving caring home than the money
